

Maria Teresa de Filippis to meet up again with her 250F !

Great news for all the enthusiasts of the trident. These two princesses of speed will be reunited again on the Belgian Ardennes circuit for a very special Spaltalia dedicated to Maserati... and that is already announced as exceptional.

Maria Teresa de Filippis will be the honoured guest of Spaltalia next June. This great lady will remain in the motor sport history as being the first woman to take part successfully in the Formula One World Championship. It will be a highly emotional moment when she will meet again with the fabulous Maserati 250F with which she won fame and particularly at the Grand Prix of Spa, in 1958, when she signed a flattering 10th place. Spaltalia won't fail either to celebrate the 50th anniversary of Juan Manuel Fangio's fifth Formula One World Champion title... at the wheel of a Maserati 250F, naturally !

It is thus under the most favourable auspices that Spaltalia announces its sixth edition which, in a few years, has become an event not to be missed for every Italian cars lover.

On June 2 and 3, the most beautiful circuit in the world will be used once again as scenery for an impressive gathering of what Italy does the best in car, bodywork and design.

It is obviously not necessary to own a Maserati to take part in the event and to participate in the numerous activities since any Italian car is welcome in the Spa paddock, thus making all the enthusiasts the true actors of the event.
