

Take the bull by the horns and register you without delay !

The preparation of the 7th edition of **SpaItalia** is in good shape. As you know, this year we will celebrate the marquee of the bull. The last weekend of June, the very new circuit of **Spa-Francorchamps** will be used as the arena for this exceptional meeting of the most beautiful GT and racing cars of the brand founded by Ferruccio **Lamborghini**.

But this is not all ! Our goal was always to promote the Italian car in all its forms and aspects. It is therefore not necessary to have a **Lamborghini** to take part in **SpaItalia**. This is why we are preparing others surprises and amongst them, the likely presence of the already mythic **Alfa Romeo MiTo** ! A fatal beauty, which will be surrounded by other emblematic innovations, underlining the stylistic rebirth of Alfa Romeo.

We cannot say more for the moment but we know that the Alfisti will not be disappointed.

Like each year, the other Italian marques will not be forgotten and many clubs have already confirmed their presence.

The magic of the Italian cars will operate again, this is for sure !

But hurry up !

Indeed, the new environmental regulations applied on the circuit of **Spa-Francorchamps** will impact our capacity in terms of track use. Therefore we have been force to slightly reduce the number of First Runs, Grande Parades and Free Laps. It is why we are urging you to register without delay in order to avoid frustrations.

We are insisting on this because it is you who, each year, are the real actors of **SpaItalia** and consequently, it is with you that we owe the success of this event.

So, please go without delay to our website in order to secure your activities for this fantastic Italian weekend on the most beautiful circuit of the world ! See you very soon!
