

**Spaltalia – announcement # 6**

**SPAITALIA – 4 & 5 JUNE 2011  
IT IS HIGH TIME TO REGISTER!**

We would like to remind you that only a few days remain for registration at reduced rates. This tenth edition of Spaltalia promises to be a magnificent first jubilee. We already know that the complete collection of De Tomaso road vehicles will constitute the heart of the exhibition around this brand. Far more than 50 De Tomaso cars are already registered and we know that numerous owners have not yet made the step. Let's hope that they won't forget to do so, because the advanced booking also ends at the end of the month for them. Anyhow, we are heading for one of the most important assemblies dedicated to the great Alejandro de Tomaso.

In a few weeks, we will have more information about the animation, which is expected to be exceptional for this anniversary. The diner party on Saturday night knows a growing success, which proves that car admirers really want to meet and have a party at the magnificent circuit of Francorchamps.

In answer to the many questions, we emphasize that it is possible to book for the sessions of the Grand Parade, the Scuderia, the rally and other activities on the day of the event, but only in function of availability and please note that a maximum number of participants is being allowed for all these activities.

See you in a few weeks at Francorchamps.
